### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 15, 2007 has been entered. Claims 1-16 are deleted. Claims 17-30 are added. Now, Claims 17-30 are pending.

2. Claim rejection(s) under 35 USC 102 and 103 in paragraph 8 of the previous Office Action (Paper No. 041407) is/are removed.

#### *Claim Rejections - 35 USC § 102 and 103*

3. Claims 17-24 and 27-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Galbiati (US 6 221 994).

Galbiati discloses a **sealant** comprising polymers prepared by an alkylene glycol di(meth)acrylate and an ethane dithio, followed by reacting with a mercaptoalkyltrimethoxysilane or an alkylmethacrylatetrimethoxysilane. (col. 1,

lines 4-19 and col. 7 and col. 8) The alkylene radical in the alkylene glycol di(meth)acrylate can contain 2 to 4 carbon atoms. (col. 6, lines 2-50) The polymers contain -O-C(O)-CH(CH<sub>3</sub>)CH<sub>2</sub>-S\*-CH<sub>2</sub>CH<sub>2</sub>-S\*\*- linkages that read on the polymers of the claimed invention where -C(O)- corresponds to one of the electronegative groups and -S\*\*- corresponds to the other electronegative group. Galbiati does not teach the method set forth in the instant claims for preparing these polymers. However, the instant claims are product-by-process claims. "Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process" *In re Thorpe*, 777 F. 2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

For Applicants' argument (Remarks), Applicants are reminded that unexpected results cannot overcome a rejection because the claimed invention is anticipated.

4. Claims 25-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuo-Liang Peng whose telephone number is (571) 272-1091. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.
